

Minutes of Meet
DASS Team 33
Date: 22/03/2024

Time: 4:30 PM – 5:00 PM

- App demo shown after changes suggested by the CEO
- PPT should be updated with the changes after the meet
- Different message should be displayed on clicking the tick button
- Image size should be increased even more
- Image alignment should be corrected
- Background colour of +/- buttons should be reviewed again
- Changes will be reviewed once again in the PPT and necessary improvements will be made after the next meeting
- Processing time analysis resulted in about 25 seconds for image processing and about 30 seconds for video processing
- Analysis should be done again after deployment on AWS to check if it causes any change
- Video analysis work will be started and updates will be given on Monday
- Considering that the frontend work is almost done and most work remaining is of backend, Rohan Rathee has been shifted to the backend team for the next phase
- AWS credentials have been provided on slack
- AWS deployment work will be started by the backend team and is expected to be completed in phases according to the timeline shared on slack
