

MOM(10/4/24)

-Time: 4:30 to 4:50 pm

- Tried running the AWS without the GPU instance
- Wasn't able to run anything because of excess memory
- Will try AWS with GPU instance and Jagadish sir will give any alternates for this later on and give updates regarding it
- New algorithm is shared to us
- That algorithm is explained
- This algo was somewhat hardcoded. Might be difficult to integarte when compared to previous one, but will give a try and give update by friday
- The documentation work is going on
