

MOM (19-02-24)

5:30 to 6:10

- Frontend team led the meeting, showcasing different versions of app pages like homepage and item pages.
- New features included settings page, camera or scan page, and updated homepage with scrollable options.
- Client mentioned designs are nearly finished and ready for CEO presentation.
- Requested finalization of presentation by end of the day.
- Assigned Chetan to begin testing the app in different environments.
- Client expressed satisfaction with UI and we asked permission to start implementing as we are almost finished with the UI and client reacted positively on that.
- Meeting concluded at 6:10.
